ABOUT THE HOST: SUSIE LEE

Susie Lee is an avid world traveler and adventurer. She has lived and journeyed extensively throughout North and Central America, Europe, Asia, and Africa. Some of her favourite voyages include, sailing through Desolation Sound, cruising through the glaciers of Alaska, surfing the waves of Hawaii, exploring the medieval castles in Scotland, riding camels through the desert of Tunisia, trekking the jungles of Malaysia, and kayaking and swimming with the sea lions in Baja, just to name a few.

Apart from her travel exploits, Lee's other passion is doing humanitarian work. She has developed and led social programs for "at-risk" youths in New Jersey and Atlantic City. In Canada, she has counseled and rehabilitated prisoners and adolescent sex offenders in group homes. According to Lee, "My collective work and travel experiences the last 13 years have brought me much insight and understanding to our human existence. I have learned to love and appreciate people from all walks of life and cultures. I also realized how truly lucky I am to be living here in the beautiful West Coast. Through this new show, I feel so privileged that I am able to share my love for travel and adventure in this region in which I call my home."

Lee was discovered after acting in an award winning commercial. According to the producer of West Coast Adventures, Danny Sayson, "I think viewers are really going to love her charm and authenticity. Her global travel experience, adventurous spirit, and passion for life and the outdoors make her the perfect host of our show. I am thrilled to have her onboard!"
